

LUKASZ RODZON

SENIOR TECHNICIAN – BUILDING ENVELOPE

PROFILE

With over 21 years of Commercial Roofing construction Lukasz has gained intricate knowledge of numerous commercial roofing systems and the detailing of these systems. Lukasz has provided Commercial Inspections and consulting on hundreds of roofing systems along with parapet wall assemblies and has completed the review of associated designs on a variety of building types within both design and construction. He possesses a leadership quality and experienced attitude to working closely with installers and his expertise and advice has proven to be invaluable in initiating compliance stemming from numerous field reviews for our clients.
